

Renee Tomina
Executive Director, Gas Distribution
Operations, DTE Energy

Biography

Renee Tomina serves as the Executive Director of Gas Distribution Operations for DTE Energy's natural gas utility which provides service to 1.2 million homes and businesses in Michigan. She is responsible for managing utility gas operations including construction, distribution and planning. In her role Renee leads the improvement of the operational systems, processes and policies in support of the organizations mission for DTE Energy. She is responsible for managing and directing all aspects of construction, operation and maintenance of the Distribution natural gas pipeline systems within applicable federal, state, and local regulations, and company policies to ensure a high level of system integrity, safety and performance.

Renee has been with DTE Energy since 2010 and has served in leadership positions in operations, customer service and continuous improvement. Prior to joining the company, Tomina worked in the automotive industry.

Tomina earned a Bachelor of Science degree in electrical engineering from Lawrence Technological University and a Masters of Science degree in systems engineering from Oakland University.
