

Robert Greskowiak is responsible for originating new power off-take opportunities for Invenergy's solar, wind, storage, and thermal assets throughout the Midwest United States with focus on MISO and PJM marketplaces.

Robert's duties include developing new and existing customer relationships while also tracking energy market trends to assist with overall company strategy. He has more than 8 years of experience in the clean energy sector both in domestic and international markets.

Prior to Invenergy, Robert was a Performance Manager and Senior Investment Analyst at E.ON Climate and Renewables, and spent several years in PriceWaterhouseCooper's management consulting practice, working on complex transactions across a variety of industries.

Robert holds Bachelor of Science in Accountancy and Masters of Accounting Science degrees from the University of Illinois at Urbana-Champaign, and is a registered Certified Public Accountant in the State of Illinois.
