

DTE Energy®

MEPC Gas Infrastructure Panel

Renee Tomina, DTE Gas

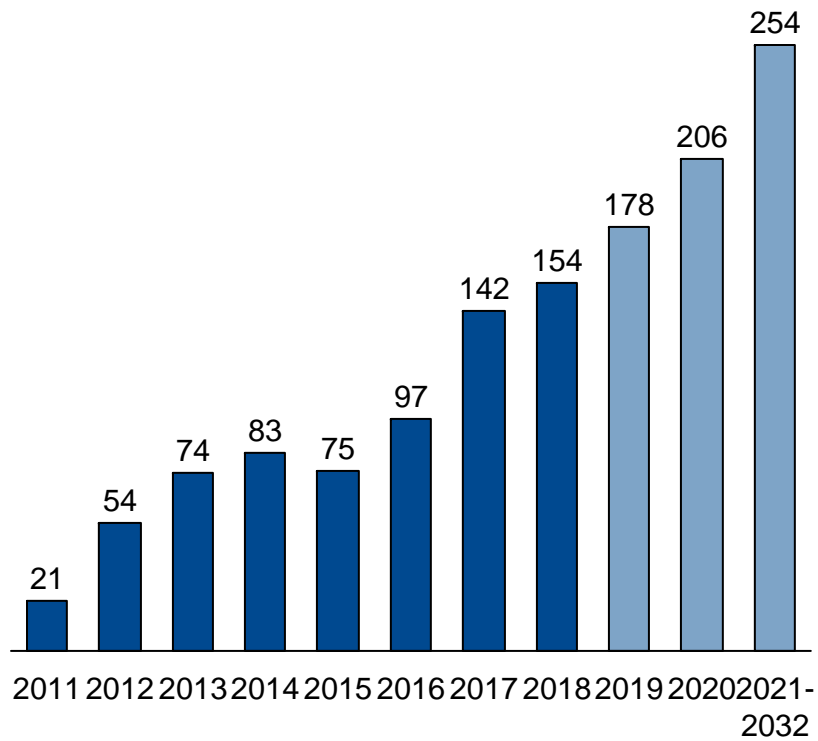

DTE Gas is focused on infrastructure integrity management, our Gas Renewal program is our key distribution initiative

DTE Gas Main Renewal Program

Miles renewed per year

Proposed

We have had some key learnings since we began this journey in 2011 – in particular how do we balance the 3 critical Cs

The balance is completing the miles at an accelerated pace, maintaining customer and community satisfaction while managing affordability

Capital efficiency

Low natural gas prices

Municipal coordination

Customer communication

J Sr. Communications Specialist John Fossen, DTE Energy AGENCY

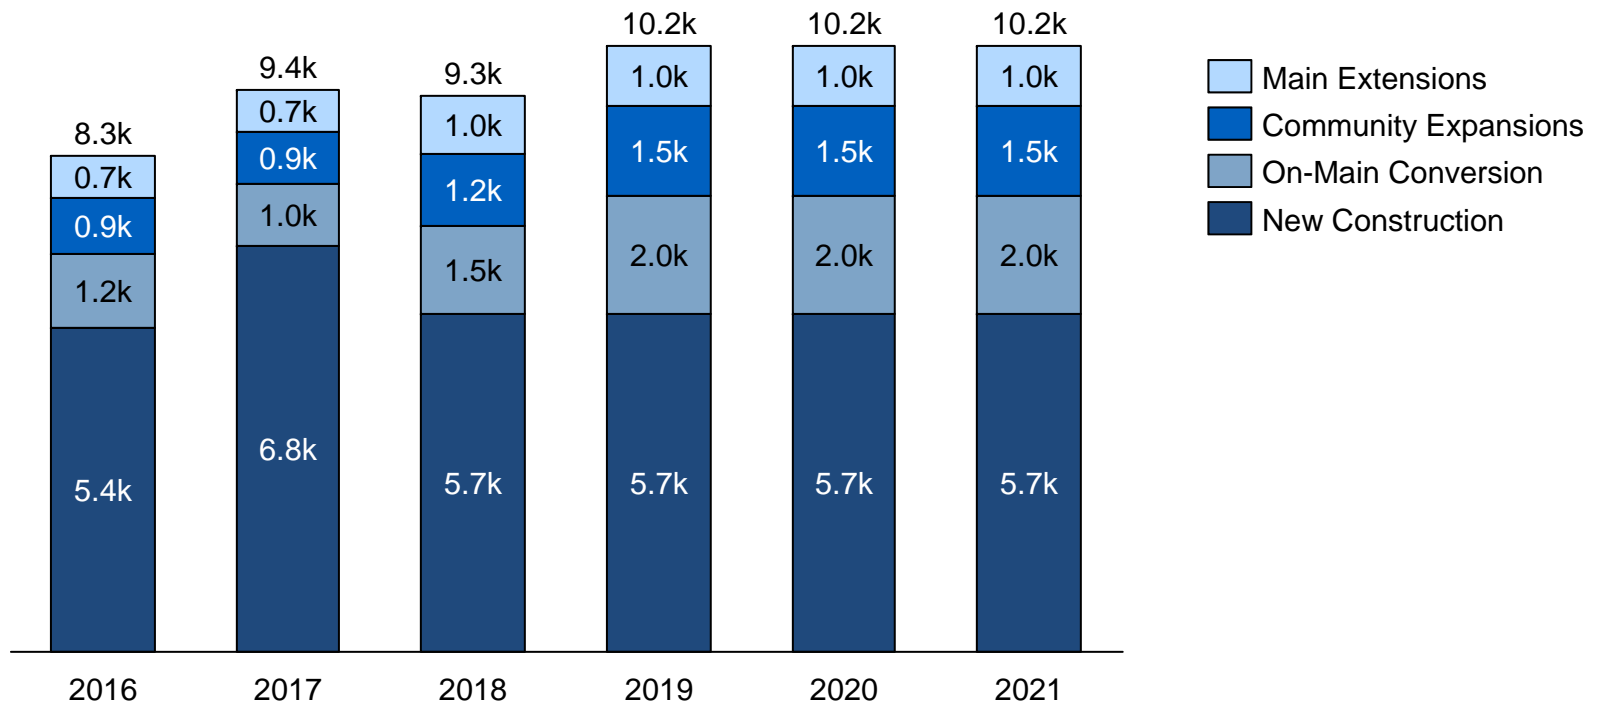

The following event is for Harper Woods residents who live in the area bordered by Kelly Road and Harper Avenue, and Huntington Avenue and Moross Road.

To maintain the safety and reliability of our natural gas system in Harper Woods, DTE is upgrading gas pipelines and meters throughout the city. To learn more and meet the people who will do the work, DTE is holding an open house and cookout at the Harper Woods Municipal Building, 19617 Harper Ave., this Thursday, May 17, from 6 p.m. to 8 p.m.

We are also investing in new attachments in our service territory

DTE Gas 5 year new customer attachment plan

Over the next 3 to 5 years, infrastructure investment in the state will increase – DTE Gas is guided by our priorities
