

Jennie Aud – Director, Gas Control and Planning, DTE Gas

Jennie Aud is director of Gas Control and Planning for DTE Gas, DTE Energy’s (NYSE: DTE) natural gas utility which provides service to 1.2 million homes and businesses in Michigan. DTE is a Detroit-based diversified energy company involved in the development and management of energy-related businesses and services nationwide.

Aud is responsible for the Gas Control organization, which monitors and controls gas volumes, pressures and alarm conditions on DTE’s gas transmission and major distribution system, 24/7. She and her team are also responsible for measurement and control maintenance, gas measurement, SCADA, gas nominations services and system planning for the company.

Prior to her current position, she served in a number of management roles in the DTE Gas organization including system planning and optimization and the Gas Renewal Program. Before coming to DTE Gas in 1994 (formerly Michigan Consolidated Gas Company), Aud worked for ANR Pipeline as a facility planning staff engineer.

She holds a Bachelor of Science degree in Mechanical Engineering from Lawrence Technological University.

Aud is a lifelong resident of Michigan and is married with two teenage boys.
